

## Michael A. Dillon

Executive Vice President, General Counsel and Corporate Secretary  
Adobe

Mike Dillon is anything but your typical general counsel. As executive vice president, general counsel and corporate secretary for Adobe, Mike is bucking the legal status quo and creating the in-house department of the future.

His distaste for acronym use and “legalese” drove him to rewrite Adobe’s contracts to plain English and develop a whole new writing style guide for the legal community. He has led his global legal affairs, public policy and compliance operations teams to ditch the filing cabinets and shift to electronic documents and e-signatures. And he has abandoned closed offices for an open work environment that encourages collaboration and faster decision making. He has been recognized for his leading-edge strategies in *The Recorder*, the *National Law Journal*, and *Practical Law*.

Not adverse to risk, Mike is an adventure seeker who commits to getting “off the grid” at least once a year. Whether kayaking in Greenland or biking across the U.S., these adventures give him the clarity and perspective to be a strong leader. He extends his passion for the environment by serving as the executive sponsor of Adobe’s Sustainability commitment.

As an avid writer, Mike chronicles his many adventures (personal and professional) on his blog and is always working on his next book. Given his love for writing, it may come as no surprise that Mike received bachelor’s degrees in Communications and Sociology from UC San Diego before getting his juris doctor degree from Santa Clara University.

His previous positions include general counsel and corporate secretary for Silver Spring Networks, Sun Microsystems and ONI Systems. He was formerly a board member of the Association of Corporate Counsel. Currently, he is a member of The Leadership Council on Legal Diversity (LCLD) and a board member of Adventure Cycling Association.

If Mike were not at Adobe, he’d like to be playing second baseman for the Oakland A’s.

Adobe is changing the world through digital experiences. For more information, visit [www.adobe.com](http://www.adobe.com).
