Adobe Spark Additional Terms

Last updated June 5, 2018.

These Additional Terms govern your use of Adobe Spark and are incorporated by reference into the Adobe General Terms of Use (**"General Terms"**) located at www.adobe.com/go/terms (these Additional Terms and the General Terms are collectively referred to as "**Terms**"). Capitalized terms not defined here have the same meaning as defined in the General Terms.

1. Customer Font.
1.1. For any font or font file you upload or submit to Adobe Spark (**"Customer Font"**) you grant us a worldwide, nonexclusive, transferrable, royalty-free, and fully paid up license to access, use, copy, edit, adapt, translate, reformat, reproduce, publish, transmit, distribute, publicly perform, and publicly display the Customer Font, including a nonexclusive, sublicenseable right and license to all Intellectual Property Rights in and to the Customer Font, including the design embodied in it, for the purpose of using, reproducing, displaying, publishing, hosting and distributing the Customer Font in connection with projects you create through Adobe Spark.

You represent and warrant that you have all necessary rights to grant us the license in section 1.1 above.

While you retain rights to the unmodified Customer Fonts, you agree that we own any modifications to the Customer Font made by us to adapt your Customer Font for use in projects you create through Adobe Spark, and that you have no rights to such modifications.

1.2. In the event we are informed by a foundry that you do not have the rights you warrant in section 1.1, we will take down that Customer Font from your account and from the Adobe Spark content that uses that Customer Font.

1.3. Customer Fonts are considered Content, as defined in the General Terms, and may be protected by third-party Intellectual Property Rights. We may take down your Content for reasons set forth in the General Terms. If we take down your Content from Adobe Spark, the display of your Adobe Spark web page will change. Click here to learn more about how your Content may change.
